

# BEHAVIORAL ANALYSIS WITH BORIS

Limited space  
available  
**JOIN NOW!**

**May 23rd, 2019**

**h10:00-13:00 & 14:00-17:00**

**Aula 4, DBIOS - Via Accademia Albertina 13, 10123 Torino**

**6 hours of tutoring by Olivier Friard and Marco Gamba**

The BEHAVIORAL ANALYSIS WITH BORIS Workshop is designed to give users a thorough understanding of the software. From setting up an ethogram to visualizing time budgets, the Workshop combines a hands-on approach with some basic behavioral analysis techniques. In addition, the workshop will focus on how BORIS can help users specifically to their research. Participants can expect to increase their knowledge of behavioral data analysis and acquire some trick for an improved fruition of BORIS. General topics covered in the Workshop include, but are not limited to:

#### Walkthrough of BORIS

- Setting a customized ethogram, a list of subjects, importing and exporting ethograms
- New BORIS tools for the behavioral analysis
- Use independent variables

#### Geometric measurements

- Exporting coded events
- Setting and sharing your coding approach
- Plotting events and time-budget calculation
- Flow diagram visualization using BEHATRIX
